

# Second International Workshop on Mobile Geospatial Augmented Reality

August 28-29, 2008 - Laval University, Quebec City, Quebec, Canada

The International Workshop on Mobile Geospatial Augmented Reality aims at bringing together researchers, developers, users and practitioners carrying out research and development in this field. The workshop will provide a forum for original research contributions and practical experiences of mobile AR, geospatial technologies and geoinformatics, and mobile games, fostering interdisciplinary discussions in all aspects of these three fields, and will highlight future trends in this area. The workshop will be organized in a way to promote networking between the participants, to initiate and favour discussions regarding cutting-edge technologies in the field, to exchange research ideas and to promote international collaboration.

### Conference site:

Gene-H.-Kruger Hall

Laval University

Quebec City (Quebec) G1V 0A6

**Workshop dates: August 28-29, 2008**

### Program chairs
